

Skills

- SQL (SQL Server, MySQL)
- Python (Pandas, NumPy, SciPy, Matplotlib)
- Tableau
- LLM
- Data Manipulation
- Excel (VLookup, Conditional Formatting, Pivot Tables)
- Communication
- Microsoft Power BI
- Pyspark(Beginner)

Projects

TATA DATA VISUALIZATION SIMULATION – FORAGE PROJECT June 2025

- Built dashboards to support executive decision-making, aligning analysis with organizational priorities and policy outcomes.
- Developed client-focused briefing questions for senior leadership, ensuring alignment between analysis and business priorities
- Delivered clear, actionable insights through tailored visuals, strengthening communication between technical findings and strategic outcome

AIG ACTUARIAL ANALYST SIMULATION ON FORAGE August 2025

- Designed actuarial workflows to inform liability insurance policy, applying statistical methods to 100+ claims and producing actionable recommendations for risk governance.
- Identified key risk trends and anomalies through advanced data visualization and exploratory analysis
- Calculated premiums using experience-based rating, producing detailed pricing assessments and actionable recommendations
- Authored comprehensive reports outlining assumptions, methodologies, and risk commentary, demonstrating strong technical writing and analytical skills

QUANTUM DATA ANALYTICS JOB SIMULATION – FORAGE PROJECT September 2025

- Prepared and analyzed retail transaction datasets to inform commercial policy decisions, including uplift testing for trial store layouts to guide evidence-based interventions.
- Extended analytical capabilities to identify benchmark stores for conducting uplift testing on trial store layouts, enabling evidence-based decision-making.
- Leveraged acquired data analytics and insights from previous tasks to create comprehensive reports for the Category Manager, facilitating informed strategic decisions and enhancing commercial application.

Work Experience

DATA ANALYST & BI ENGINEER — INDEPENDENT PROJECTS Dec 2024- Present

- Designed Tableau/Power BI dashboards with clear, executive-ready storytelling.
- Built automated analytics pipelines (SQL, Python, R) with reusable components and data-quality checks.
- Conducted market and business analysis using KNBS and SME data to support local economic policy insights.
- Performed scenario-based simulations to evaluate potential outcomes for digital business strategies, enabling evidence-based decision-making.
- Created analytics tools for YouTube performance tracking, demonstrating ability to translate technical findings into actionable communication strategies.

Education

CERTIFICATIONS

- CAREER SKILLS IN DATA ANALYTICS — LINKEDIN LEARNING
- IBM PROFESSIONAL DATA ANALYST CERTIFICATE — IBM
- DATA PROTECTION & PRIVACY COMPLIANCE — STRATHMORE UNIVERSITY
- SOFTWARE ENGINEERING — POWER LEARN PROJECT
